# How to generate a no-sign-in-required Google Document link

1. First we select the "Share" option at the top right side of the screen
2. Then we click on the lock icon to open the drop down menu
3. We select "Anyone with the link"
4. Now we can copy the new link and share it with anyone!
5. Anyone with an internet connection and modern browser should be able to access the document now!
